

The Prime Bunnies

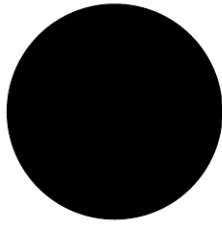

**Before there was time,
there was nothing.**

It looked like this:

It stayed that way for a long time.

Nobody knows how long.

Nobody had a clock.

Nobody was there.

.

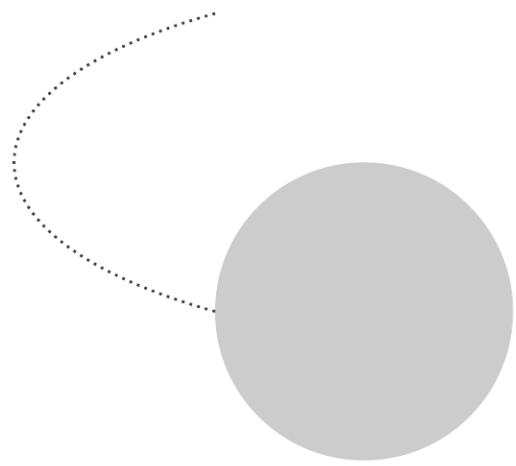

Then something surprising happened.

One bunny hopped right out of nothing.

One bunny hopped out and one bunnny said,

'Hi, I am One Bunny.

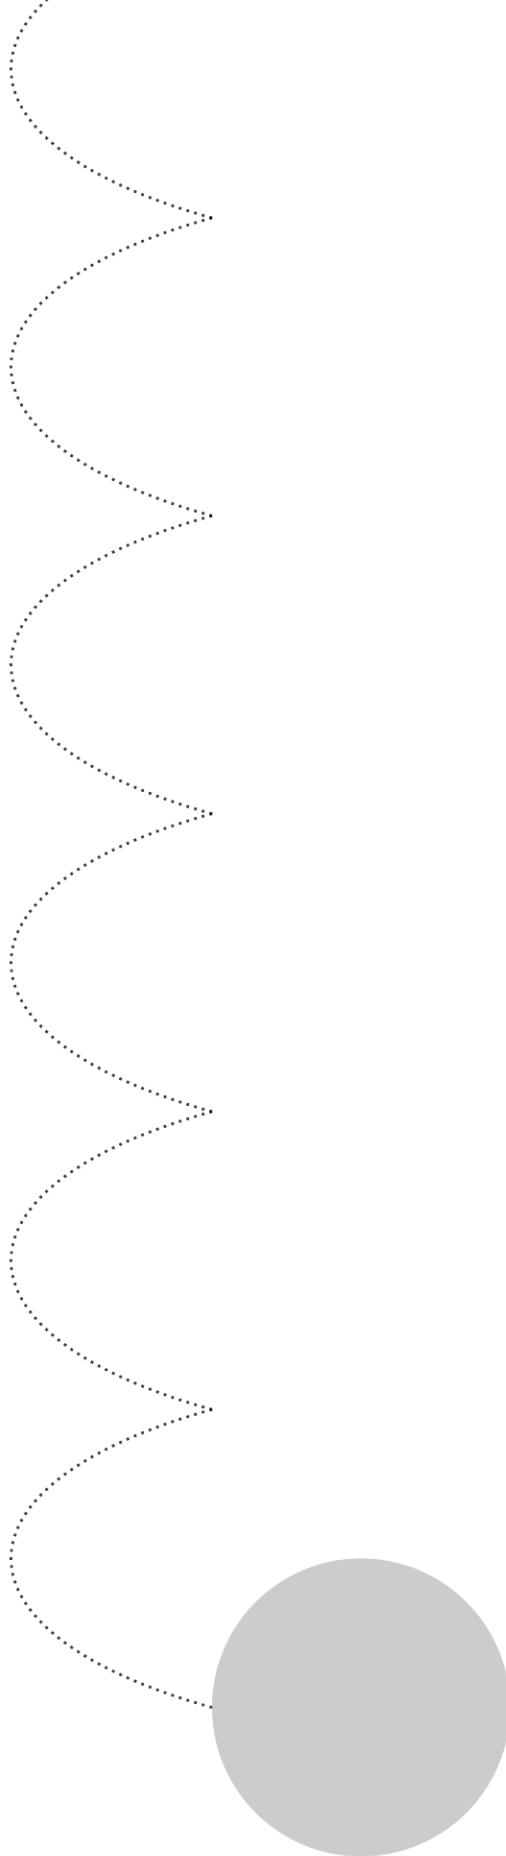

'All hops are the same to me.'

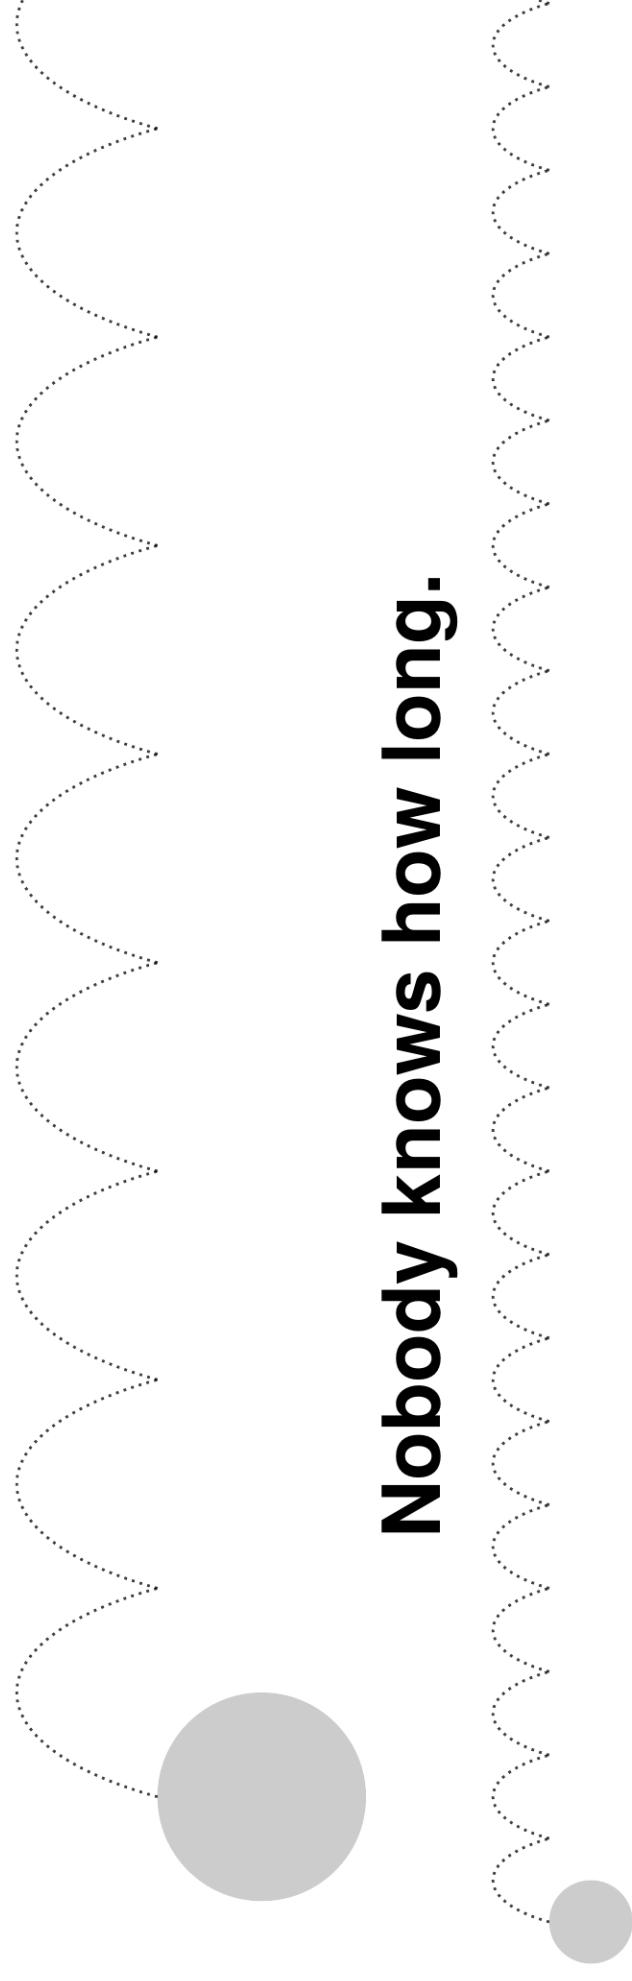

One Bunny hopped.

One Bunny hopped the same hop-

One Bunny hopped right off the page.

One Bunny hopped off the page for a long time.

Nobody knows how long.

Nobody had a clock.

Nobody was there.

Then nothing happened.

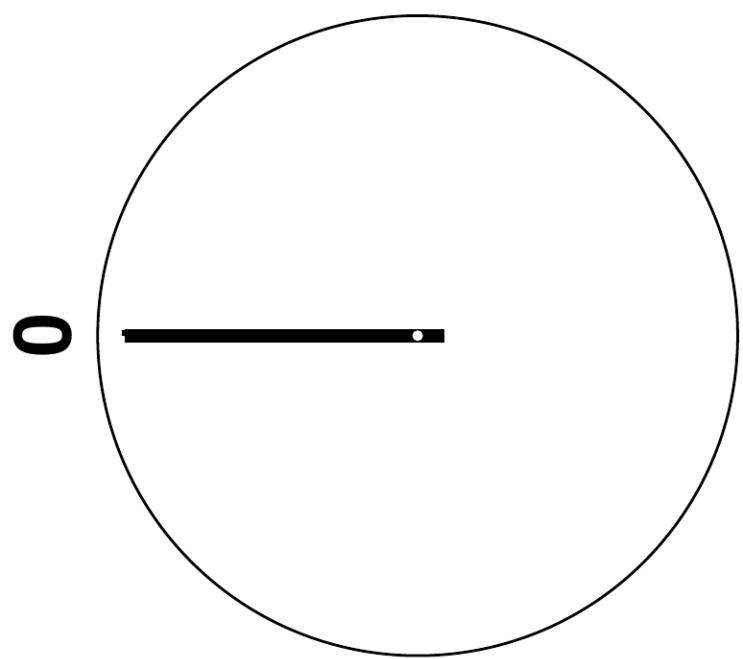

Nothing happened for a long time.

Nobody knows how long.

Nobody had a clock.

Nobody was there.

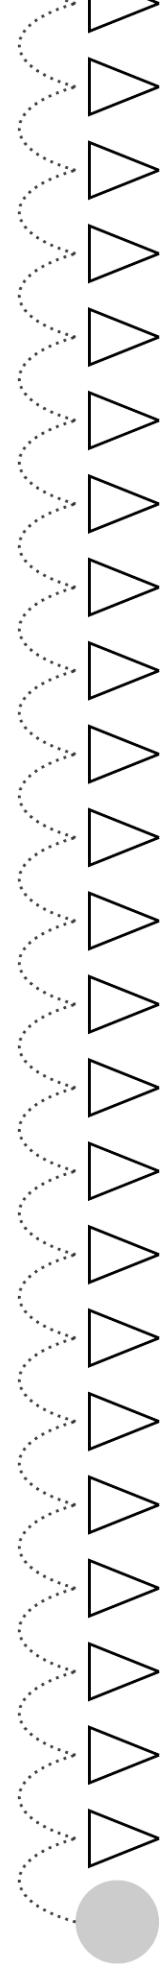

Suddenly, time started.

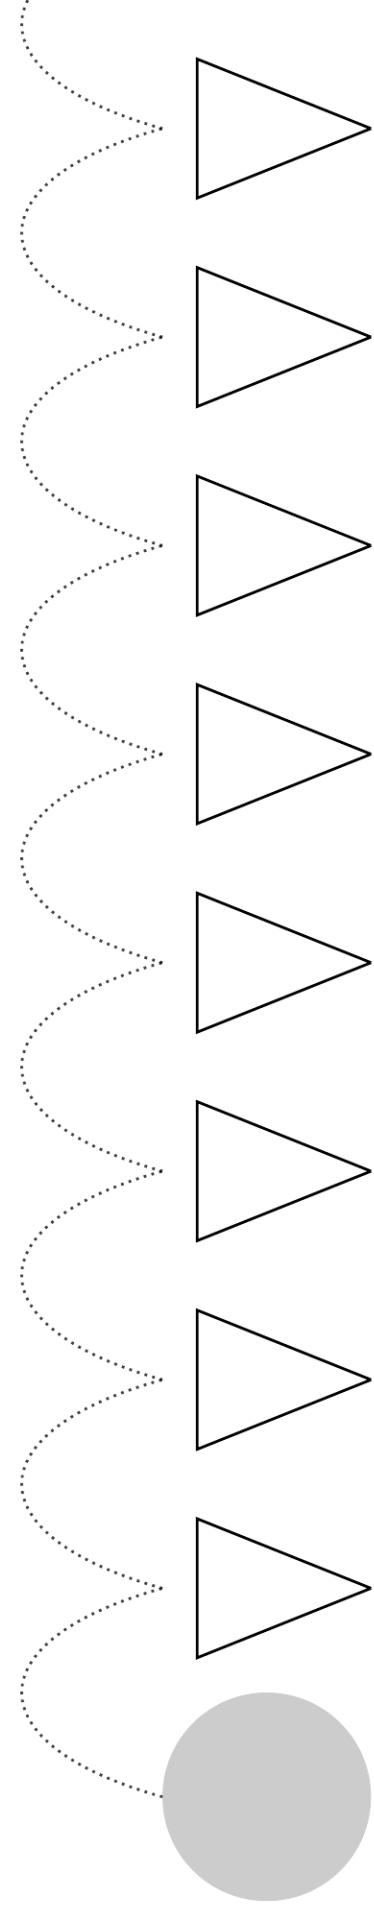

Time started.

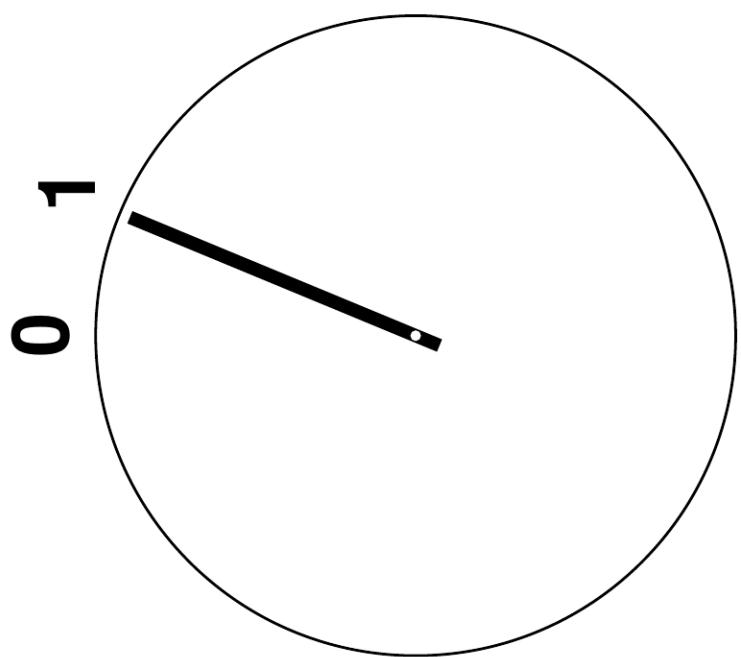

At every hop that One Bunny hopped,

a carrot grew.

**Time struck one.
One Bunny called out,
"Hop two and there will
always be a carrot for you."**

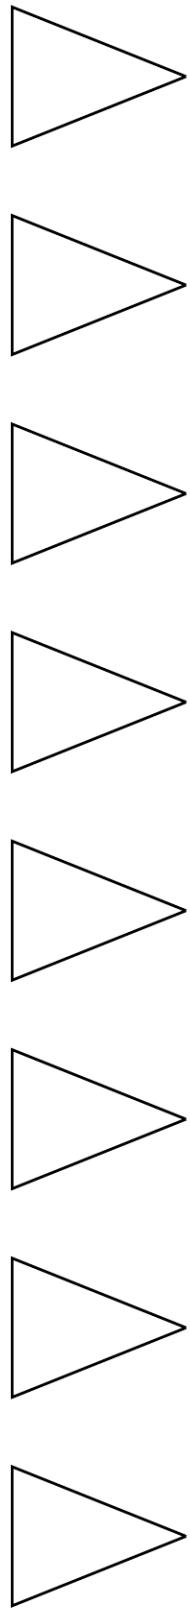

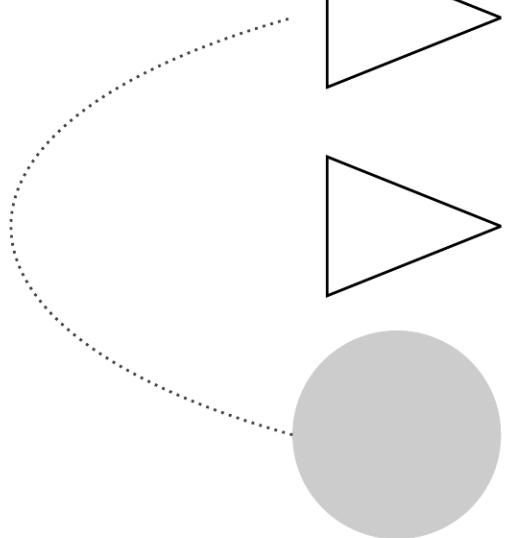

A new bunny hopped two out of nothing.

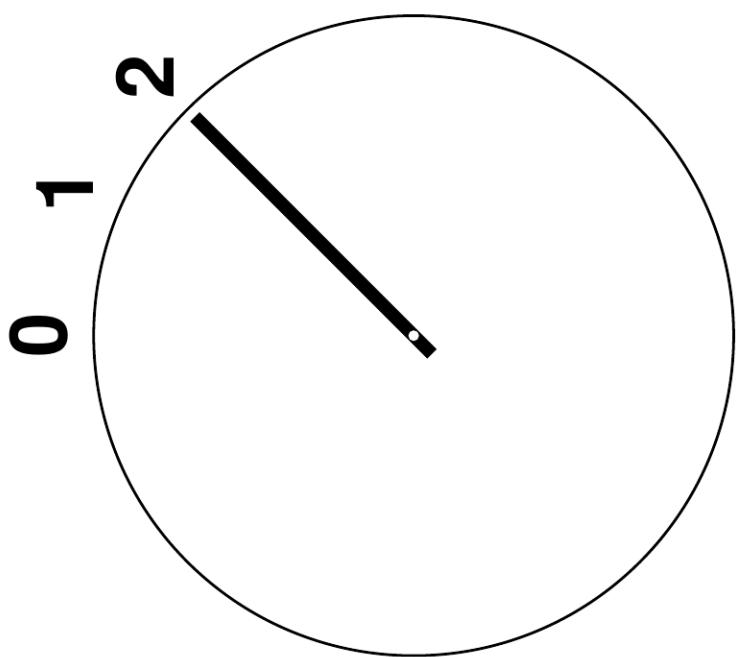

That new bunny hopped two.

That new bunny said,

'Hi, I am Two Bunny and I hop two.'

Time struck two.
One Bunny called out,
"Hop three and there will
always be a carrot for you."

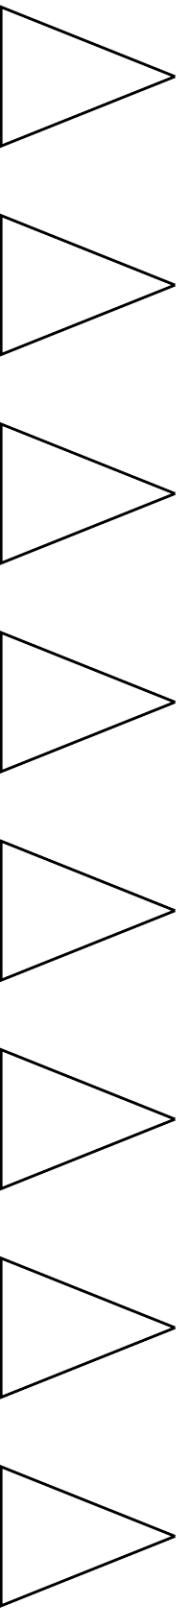

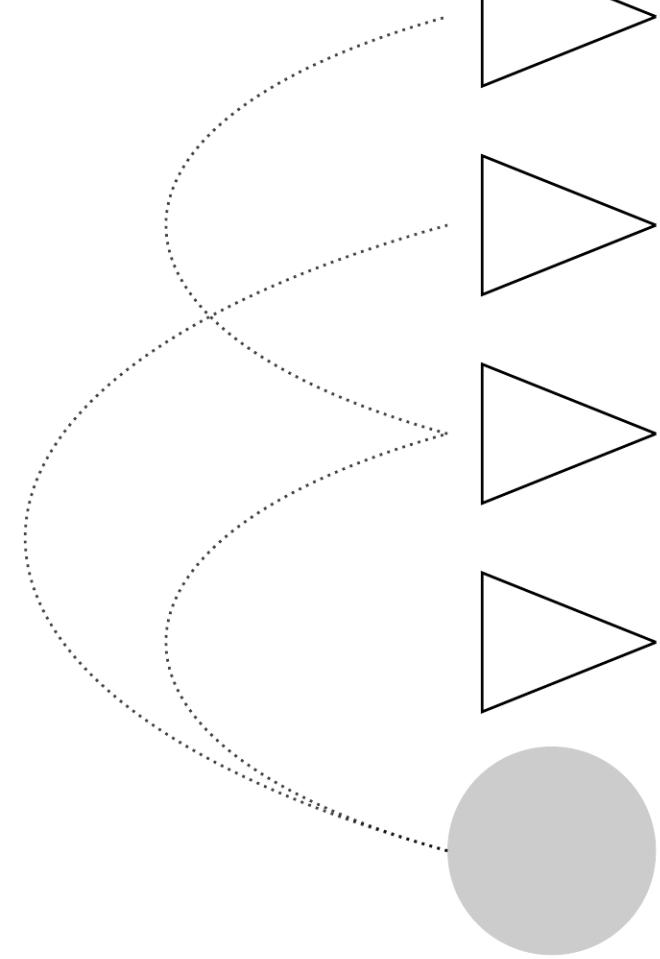

A new bunny hopped three out of nothing.

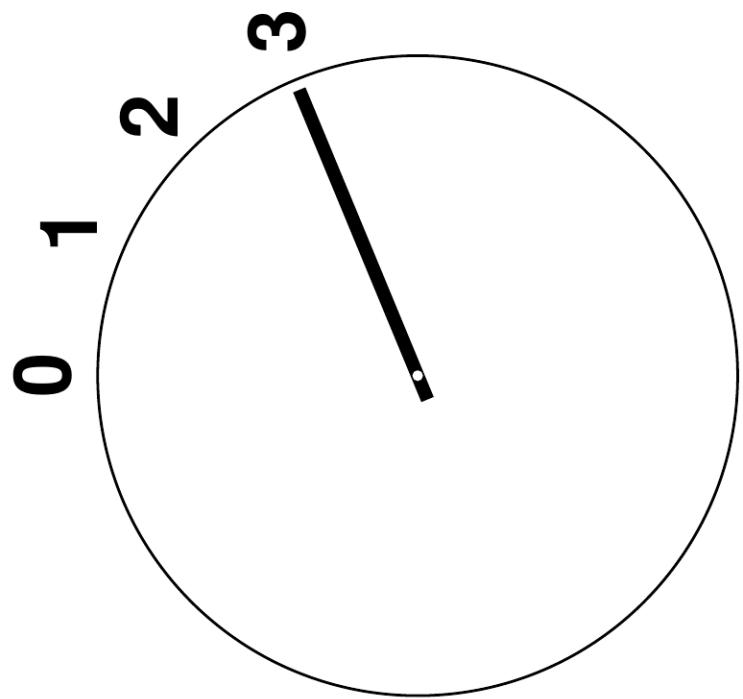

That new bunny hopped three.

That new bunny said,

'Hi, I am Three Bunny and I hop three.'

**Time struck three.
One Bunny called out,
"Hop five and there will
always be a carrot for you."**

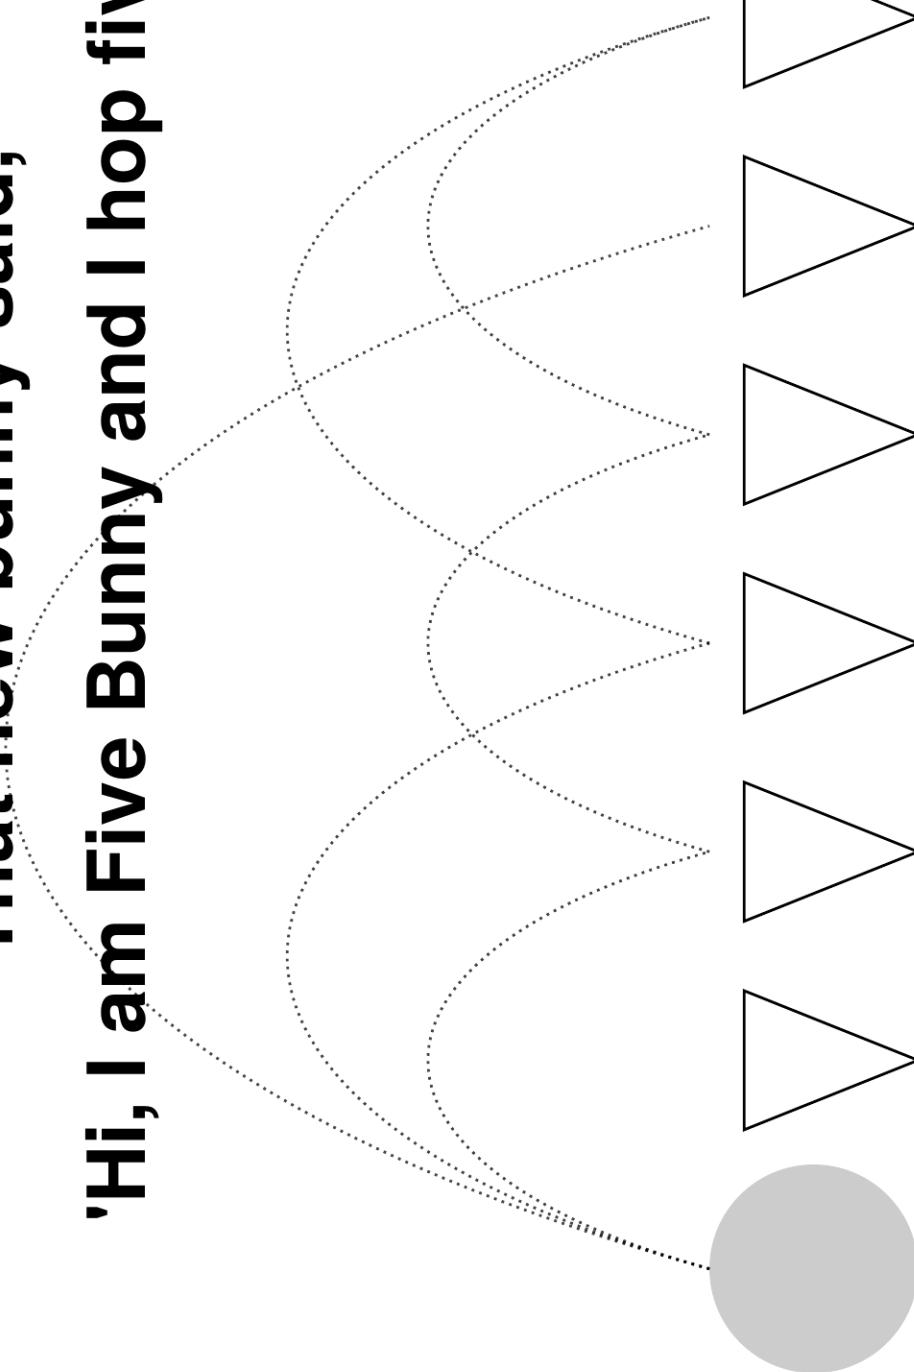

A new bunny hopped five out of nothing.

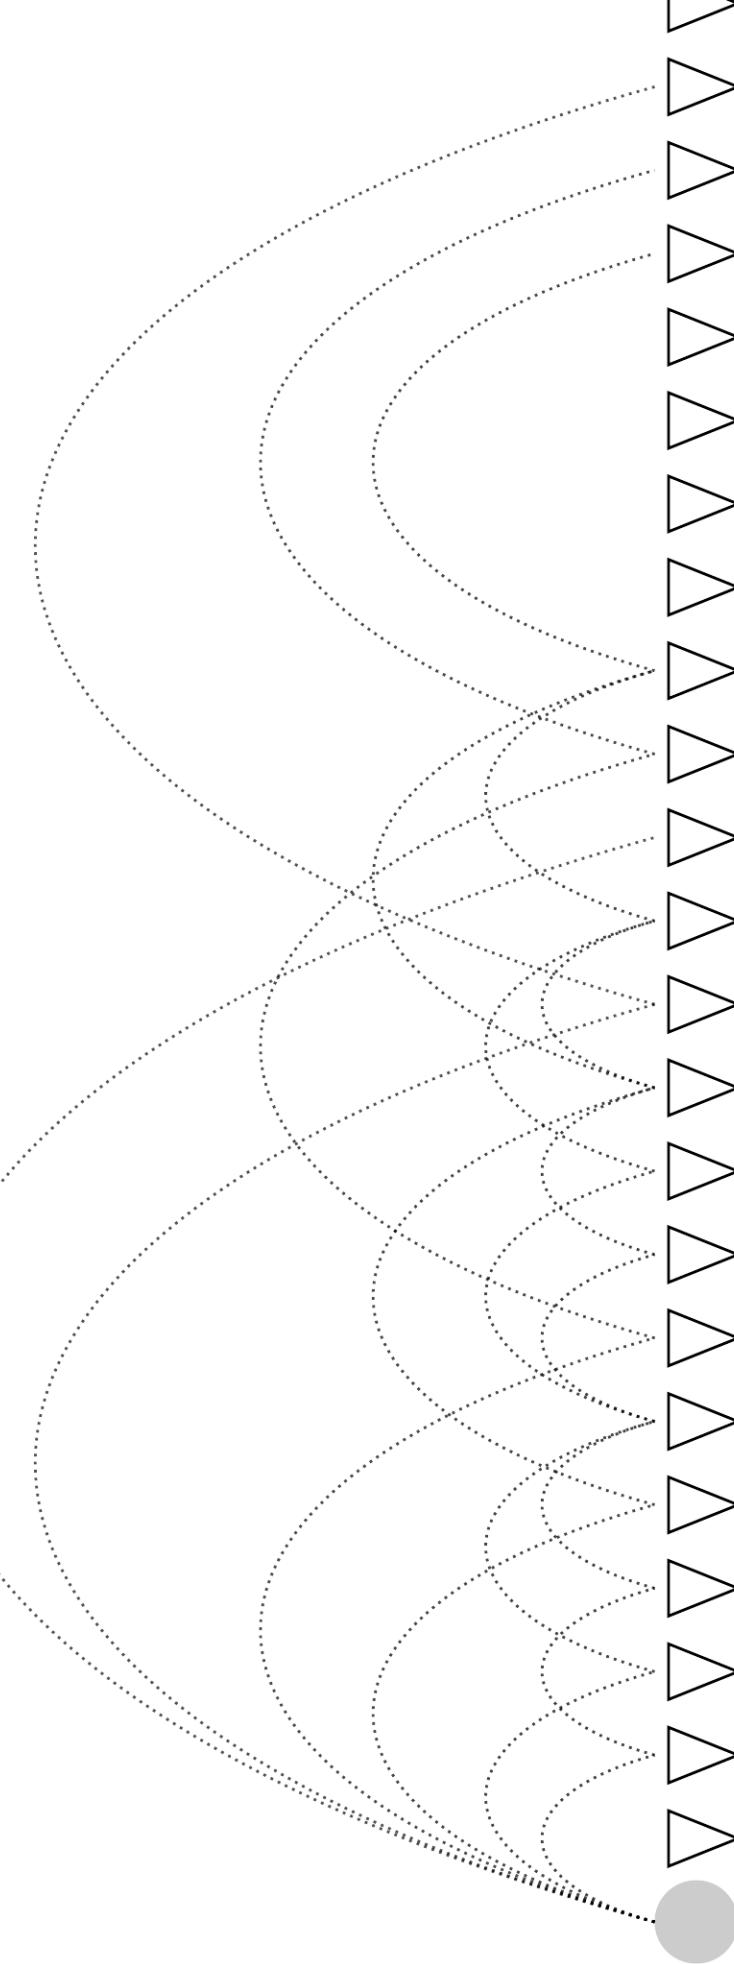

That new bunny hopped five.

That new bunny said,

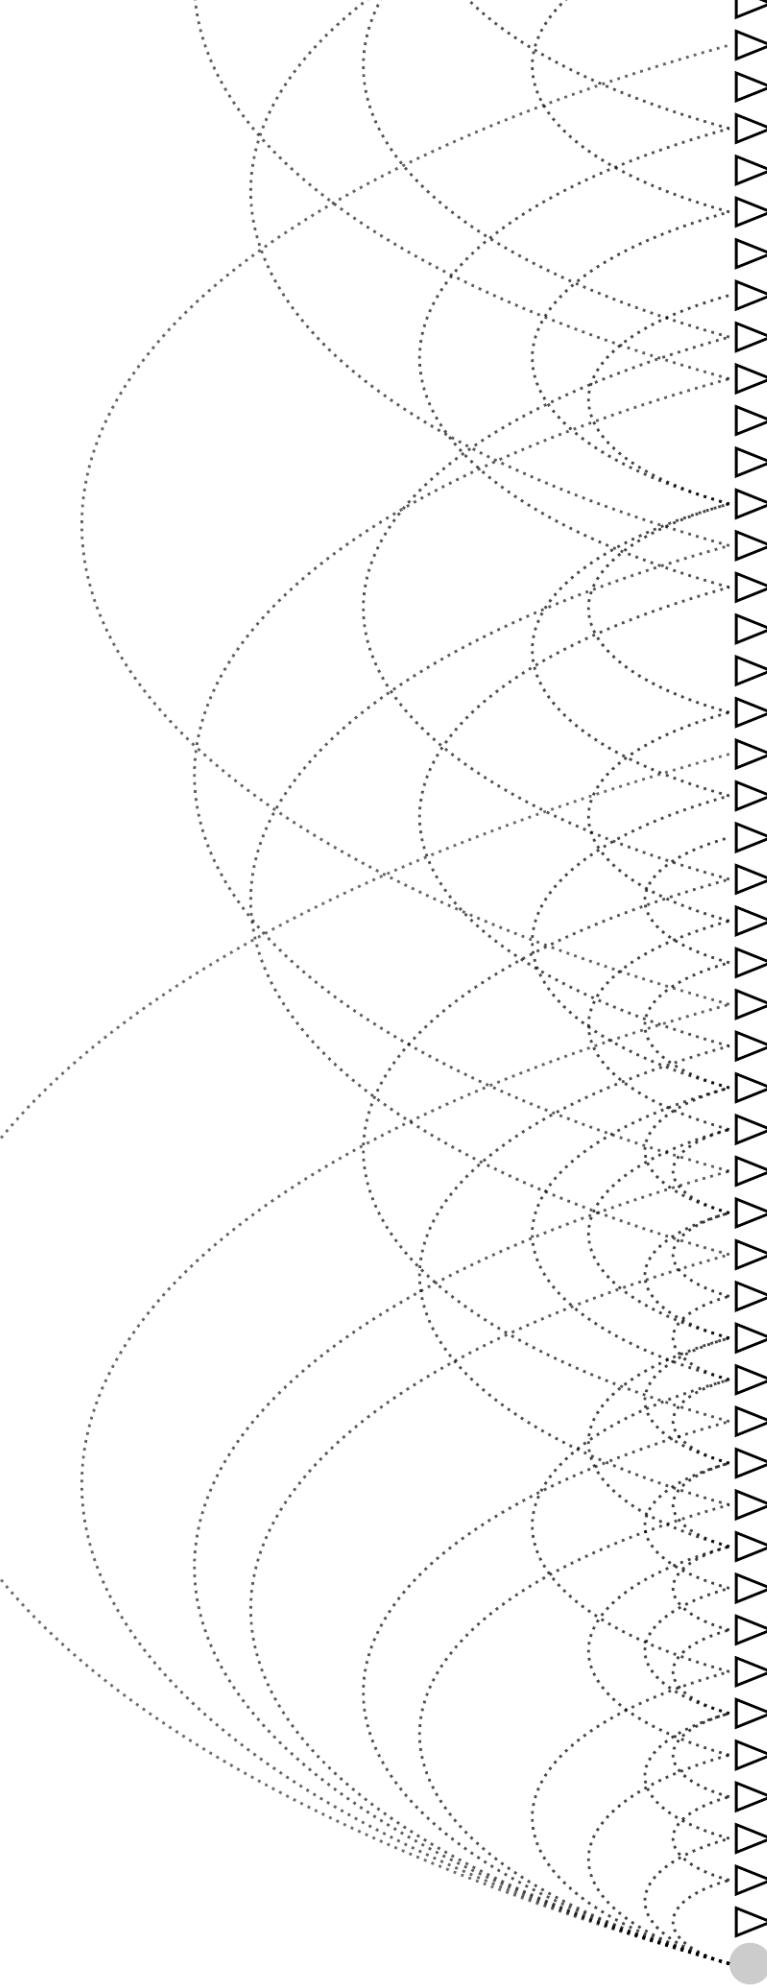

'Hi, I am Five Bunny and I hop five.'

**Things happened fast.
Out hopped new bunny seven.
Out hopped new bunny eleven.
Out hopped new bunny thirteen.**

Out hopped new bunny seventeen.
Out hopped new bunny nineteen.
Out hopped new bunny twenty three.
Out hopped new bunny twenty nine.

Bunnies find another carrot.

Bunnies hop their number.

Bunnies hop out of nothing.
